

Client Meeting Summary – Sep 08th, 2020

Attendees:

Ollie Allan
Eduardo Oliveira
Lin Mi
Tingli Qiu
Spoorthi Suresh Avvanna
Chitra Naga Durga Sindhusa Veluguleti
Yuhan Zhao

Key Points Discussed:

- The goal of the project to predict whether the athletes are overtraining or undertraining & Team should document the athlete's performances as well.
- The Team discussed the tasks and also the timeframe of finishing them.
- The client asked to split the strength training from the other activity and should treat strength training as a gym activity.
- The client will share the resources regarding the swimming activity
- The client asked the Team to share the .fit files with the other Team as they don't have time to convert them.

Task split:

- Fred will deal with the merging of data sets and optimization of the code
- Spoorthi and Sindhu will deal with calculating Tss for cycling and hr
- Lin and yuhan will deal with swimming.
- The Team should finish their respective tasks before Tuesday.
- Coding structure and style
- Meeting with Milad on Friday
