Group Meeting Summary – April 5th, 2020

*This is a meeting for the three group members who work on the data part of the initial draft

Attendees:

Tingli Qiu
Spoorthi Suresh Avvanna
Yuhan Zhao

Key Points Discussed:

- Each of the three members should pick an athlete and do some basic analyzing on that athlete's data.
  - Find what is the size and scale of data and how the variables are distributed
  - Find how to do data cleaning
  - Plot a PMC
  - Make a basic linear regression
- Each of the three members should make summaries of their work.
- The three members will meet up again **on Friday at 3pm**.
- Email Ollie for more variables
